**EXOTIC ARTWORKS:** Internationally renowned artist Richard Payne will open his first exhibition at the Convent Gallery on April 19. Mr Payne creates his own unique design working primarily in line with bold colours using pastel, oils and ink. His abstract approach to classical themes in figurative painting and drawing reflects his many years of training as an architectural draughtsman and in graphic communication. When he is not teaching master-class in perspective and composition at the Florence Academy of Art, he lives with his wife Anita in their country surrounds on the outskirts on Daylesford.
